Dear Parents and Guardians,

The first five months of the school have flown by and have provided our students with so many tremendous learning opportunities and experiences. From the classroom and science lab to the soccer field, basketball court and stage, our school district provides our students with exceptional opportunities to grow and develop their strengths across a diverse array of courses and extracurricular activities. Our focus at Green is to create a positive environment that supports the whole child while embedding the arts, athletics, and academics into a seamless school experience. Each day provides a new opportunity to support and empower every student to strive for daily growth.

The Green Township School celebrates the small victories that our students make each day through positive school climate initiatives such as Green and Gold Awards, Horseshoes, and many other classroom support initiatives. The students at the Green Township School District are involved in so many extracurricular activities that further our students' skills and engage our learners in important work to support one another and their community. Our students are exemplary members of the school and local community. As we complete the first 5 months of the school year, we have much to be proud of as our students have demonstrated growth and increased ability in all areas. We will continue to work hard to support every learner as we continue on in this school year. Please see the important updates included below.

**Transportation Survey** – The Green Township School District is interested in collecting feedback from our stakeholders on our transportation. We invite you to complete the survey at the following link.

**Climate and Culture Initiatives** – The Green Township School District is committed to creating a positive, safe, and supportive environment for every student. To that end, our school district will be engaging in a multi-session series to support equity-related topic discussions. Our first session will address Dignity, Engagement, and Individualization as a positive mechanism for change. This session will be held on Tuesday, 2/20/23 from 6:30 pm – 7:30 pm in the library. All are invited to attend this important meeting.

**NJDOE High Impact Tutoring Grant Awarded** – We are pleased to announce that our school district applied for and was awarded \$38,000 in high impact tutoring grant funding via the New Jersey Department of Education. This grant funding will allow for our school to provide free, high impact tutoring to identified students who are below grade level as evidenced by NJSLA
